MARION, CRITTENDEN COUNTY, KENTUCKY, JUNE 25, 1903.

NUMBER 3

NEW FINDS OF ZINC!

Three New Carbonate Veins Opened The Past Week—A New Rosin Jack District Being Prospected Successfully—How Hand Jigs are Used in Joplin.

THE ZINC FIELDS OF MISSOURI AND KANSAS.

In the early days of the oil field excitement of Pennsylvania, an imaginary line was often called the limits of the productive area. The same imaginary line idea takes possession almost invariably of mining men in a new district. Most of us have known that but little if any prospecting has ever been made east of the Illinois Central railroad in Crittenden county. Why we possibly never have inquired, possibly the reason was on account of the Columbia mine having been worked and ores shipped a decade since, and we naturally concluded that the best and perhaps the only productive properties should be in that section which is west of the railroad. This same idea obtained for several years in Joplin. As prospectors multiplied and the ground in the immediate Joplin vicinity became covered the area extended, and has gone even beyond the Kansas line.

East of the railroad in this county we have two faults or breaks given us by the geologists; the Marion and the Crittenden. Why any possible reason exists why this section of country shall be barren of ores, while west of the railroad the veins are many and well filled, has always been a puzzle.

Within the past few days there has been found in the limestone near what is known as the "Crittenden Fault," the highest grade zinc blende or Jack that is possible to conceive of. It is a rosin Jack of virgin pureness, in large crystals, and it is without doubt the most promising ground in which zinc has been found in the western Kentucky district. In next week's PRESS we shall have rather a full report of some extensive prospecting being now carried on in that section with the views of mining men.

There are several properties in this district where hand jigs could be used to advantage.

The following explanation of their workings will be found of considerable interest, it being copied from the Zinc News:

"Hand jig propositions" are sometimes wonderful producers considering the comparatively crude methods which are in use in the Joplin district. The term is one little understood by the general public, and therefore an explanation is in order. First, let it be known that in the Joplin district all ore, after being crushed into small fragments, (usually to 1-8 inch chips) is thrown into boxes with perforated metal bottoms. The boxes, by means of steam or hand power are agitated vigorously in a second and larger box, in which is water. The difference in the specific gravity of the zinc and lead and rock in which the mineral is found, results in the separation of the minerals from the worthless rock. The mineral layer is shoveled off the top of the worthless rock and placed in bins, while the rock, or tailings, is

thrown onto a dump. So experienced do hand jig men become that they can effect a very clean separation of the mineral from the worthless rock. In mines in which the shots (explosives) break the rock into small fragments, no crushing is needed, and frequently the ore thus secured is enough to pay for all development work. When the mine is sufficiently opened up to demonstrate its value, a concentrating plant, usually of 100 or 125 tons capacity, per 12 hour shift, is added at a cost of perhaps \$7,000. This plant is based on the same principle of separation as is the hand jig proposition. As an example of the worth of a hand jig proposition might be cited the case of Messrs. C. O. Frye and Oliver Black, of Joplin, who the first week in June produced 34 tons of zinc ore with two hand jigs. The ore deposit being worked was very rich and easily mined, but this example shows the possibilities of a mine such as you described."

The Henderson syndicate Messrs. Clark, Dallam and Baldauf, are making every preparation for the shipment of their carbonate of zinc. Platforms are being constructed for dressing the ore, which is done by hand and a couple of log washers will be installed, and the necessary power for clearing the sands from what may be termed the gravel size.

The operation of mining and preparing the carbonate for market will follow very closely the splendid system inaugurated by Mr. W. C. Uren on the Old Jim mine of Messrs. Blue & Nunn, which is almost within a stone's throw of the Clark-Dallam-Baldauf property.

The opening of this vein has been a matter of many months' time. Indeed there have been several times when the owners of this now splendid property have been inclined to throw up the sponge, so far as continuing work was concerned. As is generally the case, it was pretty near the last hour set for postponing the work, for this year at least, that this remarkable vein of carbonate was uncovered.

It is hardly possible to be too thorough in prospecting in this district. The vein of carbonate opened has been approached by trenches within two or three feet at least twice during the past two years.

Surveys of the Old Jim leading into this ground were made, and every scientific method resorted to to place the ore; but after all, picks and shovels get in their innings at last and the carbonate was brought to light.

Trenches have been cut in several places fully fifty feet apart, and the strong 8 foot of ore is exposed in every cut made.

There is no known reason why the proceeds of this body of ore should not equal or possibly exceed the fortune already attained,

and the other fortunes to follow, which have been taken from the Old Jim vein.

Postmaster Crider is using every means in his power to conduct a wholesale business in a retail store. The little room provided by the Government for postal purposes was once sufficient for the needs of the service, but it has long been outgrown; in fact the clerical force necessary for the speedy handling of the great mails now received a dozen times a day in Marion, from various sections of the country, has been increased until there is scarcely room for them to pass each other in their confined and cribbed quarters. Yet the number is absolutely essential to serve the public well and speedily.

There are three locations in Marion that would be ideal, and the owners of either one would erect a building suitable for the present and future needs of this branch of the public service. Let us have a real postoffice building.

Schwab and Bement, on the David Vaughn farm at Lola, in Livingston county, have opened up the Mann carbonate vein in splendid shape, a short distance from the original Mann shaft opened by Col. Roberts before the war; that is, the legal war for the possession of this property. A second vein of carbonate has also been uncovered, running at almost right angles to the first on the Vaughn property, by the same parties.

It is a splendid carbonate country all through the Lola section, of the district, and only needs intelligence and well directed effort to produce great results.

The property adjoining the Mann land on the other side has possibilities as great as any in the district, provided a little brains could be mixed with the directions given the foreman.

The American Zinc Ore company will enter the Wisconsin district for the purchase of zinc ores for export. In the past these ores have been sold to a LaSalle, Ill., Zinc company, and to the Mineral Point (Wis.) Zinc company. Mine operators in this field have for years felt that these companies have not been paying the market value for ores and it has been frequently charged that an agreement to hold down the price of ore exists between the two concerns. This competition will likely increase the prices paid for both lead and zinc ores.

In the Arkansas zinc field especially, in and around Yellville, more work is being done than ever before. The completion of the railroad has shortened the wagon haul to such an extent that a large amount of ore will be marketed this season.

In the Fortina, Missouri, Zinc field, where one or two of our local mining men have interests, extensive prospecting is being made. Several mills are in process of erection, and it is hoped that the output will be correspondingly large. The PRESS is unable to learn of any considerable shipments having been made from Fortuna and from the general tendency to boom this section of country, it would appear that some one of the Thunder Mountain crowd must be interested in seeing that this district received a good newspaper send off, at least.

Shipments of "Jack" direct from the Old Jim mine to the Winona, Minn., smelter has been continued all the week. We are all so accustomed to high grade ores in this district that the movement of almost pure sulphide of zinc or zinc blende taken from the vein with scarcely any dressing, and that done by pickaways, does not attract the attention it deserves. It is almost unparalleled in any mining district in the world that raw zinc ore should average as this does, fifty-four to fifty-six per cent of metallic zinc.

The Marion Mineral Company now owns in fee simple the Miller zinc property, a mile southwest of Sheridan, on the Flannery dyke. It was partially prospected last year, yielding some eighty tons of zinc carbonate. Owing to diversity of interests work was suspended last fall. The company has purchased all the heirs and will begin work at once.

The new zinc smelting plant at Pueblo, Colo., which is operated by Belgian and American capital was blown in last week. Over 200 men are now employed there, and the force will be doubled in sixty days.

Reports from the ricefields of Texas state that Mr. P. S. Maxwell of Marion has purchased about 900 acres of rice land. It is understood that the purchase price was in the vicinity of \$25 per acre making a total of twenty odd thousand dollars.

The big 7-inch Fairbanks-Morse lift pump is being installed at the Lucile mine, and will soon be at work emptying the water from the big shaft. This pump is worked by a steam head.

The El Paso, Texas, smelters, are drawing heavily upon British Columbia and Chili for their supply of lead ore.

ROLL OF HONOR.

The following have paid their subscriptions since our last report:

G. R. Bibb, Mexico.
T. M. Dean, Iron Hill.
S. W. Watson, Lola.
J. W. Jennings, Marion.
M. C. Stephens, Salem.
J. A. Davidson, Louisville.
D. W. Stone, Tolu.
John C. Hardin, Hampton.
W. I. Nunn, Anniston, Mo.
Lula Hughes, Weston.
J. L. Rankin, Ford's Ferry.
Mrs. Jack Cloyd, Providence.
Jno. A. Hunt, Marion.
Thos. McConnell, Iron Hill.
Jno. W. Bebout, O'Hara, Ky.
Mrs. A. A. Ellis, Smithland.
Jas. F. Vinson, Ft. Worth, Tex.
A. J. Eskew, Marion.
Jno. W. Weldon, Crofton.
P. M. Ward, Marion.

HUNG JURY

In the Jett-White Case at Jackson—Prisoners Removed To Lexington.

The jury in the Jett and White cases at Jackson was discharged from service after many hours deliberation, having failed to agree on a verdict. In the case of Jett one juror, Burns Fitzpatrick, held out for acquittal, eleven of the jury favoring the death penalty. In White's case seven jurors were for acquittal and five for conviction. After discharging the jury Judge Redwine transferred the cases to Cynthiana for trial and ordered the prisoners taken to the Lexington jail for safe keeping. The Shelbyville and Danville militia companies were withdrawn, and the only soldiers left in Jackson are the members of the provost guard.

Jett and White were in an unruly mood during the journey to Lexington; both had been drinking. Jett was particularly boisterous and was only suppressed when Major Allen threatened to gag him. Their first caller, outside of the newspaper correspondents, was Judge James Hargis, of Jackson. Hargis asked jailer Wallace to treat them kindly, and to spare no expense, adding that he would pay the bills. Jailer Wallace replied that the men would receive the usual treatment accorded prisoners and that neither faction in the Breathitt county trouble need come to him with any suggestions.

A CALL.

The Republicans of Crittenden county are requested to meet in mass convention at the court house in Marion, Ky., Saturday July 11, 1903, at 2 o'clock p. m., for the purpose of selecting delegates to the State convention to be held in Louisville, Ky., July 15, also to select delegates to nominate a candidate for the Legislature in the counties composed of Crittenden and Livingston.

J. FRANK CONGER,
Chmn. Co. Com.

DEEDS RECORDED.

J. B. Hughes and others to A. J. Baker and J. O. Dixon interest in land of J. J. Hughes, \$2000.
Josh B. Binkley to W. B. Yates lot in Sheridan, \$227.
J. M. McChesney to J. L. Rankin, 106 acres on Caldwell Springs branch, \$1,500.
E. J. Corley to Amos Storaugh, 20 acres, \$200.

Unknown Colt Captures Derby.

The Picket, a colt that never before won a race, captured the American Derby at Chicago before a crowd of not less than 60,000 persons. The winner is from Kentucky, and was trained at Churchill Downs. Louisville racing experts won heavily on the colt, largely through the winter books. The added money won by the horse amounted to \$28,000.

MUST HANG.

The Appellate Court has overruled the petition for a rehearing in the case of Earl Whitney and Claud O'Brien convicted of the murder of A. B. Chinn at Lexington. Mandates will be issued in the cases and Gov. Beckham will then fix the date for the execution.

Several soldiers who were conspicuous in the assassination of the King and Queen of Serbia have been rewarded by King Peter with promotions in rank.

COURT OF APPEALS

Upholds Louisville Democratic Primary—Knockout for Allie Young.

The Court of Appeals upholds the Democratic primary held in Jefferson county and the city of Louisville May 26, upholding the regular City and County Democratic committees which called and conducted the primary, and sustains the injunction granted by the Jefferson Circuit Court to restrain Allie Young from removing the committee or interfering with the primary. The decision is a clear knockout for Allie Young at every point. The opinion was handed down by Judge Paynter, a majority of the court concurring.

As to the committee the court holds that if the State convention gave the State Central Committee authority to remove local committees, it did not delegate that authority to Chairman Young or to any other persons. As to the primary, it is held that party authorities have no legal power to call off a primary when the rights acquired by candidates under the call would be destroyed. The injunction by the Jefferson circuit court to prevent interference with the committee and the primary is declared to have been the proper remedy.

LATE DISPATCHES.

President Roosevelt removed Judge Daniel H. McMillan, of the Supreme Court of New Mexico, on charges of general immorality.

A mob of 2,000 men took a negro from a workhouse at Wilmington, Del., and burned him at the stake. The negro had assaulted a white girl.

Senator Hanna again declares that even if nominated for the vice presidency he would not accept it. He has no White House ambitions, he says.

The McKinley Memorial Association reports that a fund of \$500,000 has been subscribed for the monument and will invite sculptors to submit designs.

James H. Tillman, former Lieutenant Governor of South Carolina, has asked for a change of venue, in his trial for the murder of N. G. Gonzales, claiming that the citizens of Columbia are prejudiced against him.

A Russian explorer, G. Z. Zoubkov, penetrated into the heart of Thibet, a country from which Europeans have hitherto been barred, and while maintaining a residence there accumulated a fund of information relative to the country and its population which will prove of great value to geographers and scientists.

PUNISH THE ASSASSINS.

The foreign Powers are likely to become insistent in their demands upon King Peter that the assassins of Alexander and Queen Draga be punished. The question of recognition of the government will be settled upon the formal assumption of Authority by the new King.

There are many things pleasant for you to read, both truth and fiction, and the busiest man will at times stop to read, especially when the subject is one of interest to him. More especially is this true when he sees that by reading he can save dollars. By reading this you may save a great deal, by buying a bucket of Chase & Sanborn's choice blended coffee; price \$1.00 per bucket. Sold only on a guarantee at Black & Son.

THE OLD RELIABLE

ROYAL

BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

THE TOBACCO WORM.

Its Habits, and the Best Way of Removing It.

The following interesting matter in regard to the tobacco worm is from a report of the State College of Kentucky:

A knowledge of the life history of this insect, and particularly of the number of broods of worms which appear each season, is of a good deal of importance in spraying. After gathering up all of my notes for three years, I find that there is some evidence of three annual broods, instead of two, as has been thought to be the number through the South.

On June 8, 1900, adult moths were captured by me at Lexington. These probably represented the adults from worms which went in the ground and changed to pupa in the fall of 1901. On July 3rd a nearly grown worm was taken from a tomato plant in my garden and on July 9th it had changed to a pupa in the ground.

Young worms recently hatched, have been observed on tobacco July 3, 1901; July 9, 1901; July 11, 1901; August 9, 1901, and September 9, 1902.

Those observed during the first half of July, probably represent a second brood, the first one developed on tomatoes or on some other plant. The third brood would, therefore, be the one which appears during early August and does much of the injury to tobacco. The young worms which were noted by me last fall on the refuse tobacco leaf after cutting, are probably from occasional adults of the third brood, which during the long, mild autums, come out in fall instead of spring. (I took Sept. 18, 1901, a moth just from the ground and the wing not yet expanded). Such young are liable at any time to be destroyed by the frost, and I think ordinarily they do not become adult; still it is altogether probable that during some of the exceptionally mild fall and winter weather experienced here some go into the ground to pass the winter.

To the grower the important facts in this life history of the insect are the appearance of a brood in early July, and another in early August.

It is not necessary to spray tobacco more than three times, provided the times of making the application are well chosen.

Judging by experience the proper time to apply paris green is early in July, and again in early August, but extended experience will probably show the broods to vary somewhat in times of appearance with the season. The thing to do, consequently, is to watch the plants and apply the poison as soon as the young worms begin to appear. A third application may be safely made about the middle of August.

Use weak mixtures, even if you are forced to spray four times. One pound of Paris green in 100 gallons of water is enough if applied at the proper time, namely, when the worms are young. I should not use more than one lb. in 120 gallons, at any rate.

Where tobacco is grown on a large scale, it is economy to get a copper knapsack sprayer from some maker or dealer of known reliability. An "agitator" should always be attached to the handle of the pump.

To those who dislike to use paris green on tobacco, the use of cobalt in the flowers of jimson weed is commended. It has stood the test of experience now for forty years at least, and is still in favor with growers. The best time to use it is during August, when the fly is most abundant. The

flower may be plucked from the plant and set upright in the ground about tobacco fields, after introducing by means of a quill a little of the following mixture: Water, one pint, noney or molasses one fourth pint, cobalt, one ounce.

LOCAL OPTION.

Great Progress of Temperance in Some States.

A tidal wave of local option is sweeping over Virginia, Tennessee, North Carolina, Georgia and Texas. After years of contest and after repeated efforts to carry entire state for prohibition, the policy seems a settled one to adopt local option. Years ago this was not feared by the liquor men, for its beginning was in the rural districts. Local option measures were then secured without opposition. But when these measures began to cover large portion of the territory of given states, alarm was raised in the camps of the liquor legions. More than one half of the territory of Alabama is covered by prohibitory laws by means of churches and schools procuring prohibition for a radius of several miles about each of the institutions. Texas and Virginia have local option laws by which they enter into a contest in a given beat, town, city or county for the abolishment of strong drink. In Texas the laws are so rigidly enforced that passengers are unable to purchase even a bottle of beer from the buffets of the sleeping cars.—Ex.

THE CANNIBAL TREE.

The cannibal tree of Australia is said to be the most wonderful tree in existence. A writer in the New York World refers to this tree as "the most wonderful of God's many wonders in vegetable life." According to this writer the cannibal tree grows up in shape like a huge pineapple, and seldom attains a height of more than 11 feet. It has a series of broad, beardlike leaves, growing like a fringe at the apex, which reminds one of a gigantic Central American apex. When standing erect these broad, thick leaves hide a curious looking arrangement that appears to perform the same functions as those of the pistils in the flowers. Naturally, these beardlike leaves, which are from 10 to 12 feet long in the smaller specimens, are from 15 to 20 in the larger, hang to the ground and are strong enough to bear a man's weight. In aboriginal times in the antipodean wilds the native worshipped the cannibal tree under the name of the "devil tree," the chief part of the ceremony consisting of driving one of their number up the leaves of the tree to the apex. The instant the victim would touch the so called pistils, of the monster, the leaves would instantly fly together, like a trap, squeezing the life out of the intruder. Early travelers declare that the tree held its victim until every particle of flesh disappeared and on this account it is called the "cannibal tree."

AIDING THE MILITIA.

The War Department has made announcement of the provisional apportionment to the States and Territories of 50 per cent. of the \$2,000,000 appropriated by the act for arming and supplying the militia to correspond with the regular army. For the Ohio Valley the apportionment is as follows: Ohio, \$51,730; Indiana, \$19,186; Kentucky, \$17,340; West Virginia \$9,860.

COST OF EDUCATION.

The Enormous Sum Spent Annually in the United States.

It is probably not generally known that the United States spends annually on elementary education about \$227,000,000—the exact figures for 1900-1901 were, according to the report of the United States Commissioner of Education, \$226,043,226. Europe spent during the same period approximately \$246,000,000. The enrollment in the elementary schools of Europe is, however, in the neighborhood of 45,000,000, while in the United States it is not much more than 16,000,000, although it is estimated that there were in 1901 almost 22,000,000 children of school going age in this country. Our yearly expenditure per pupil averages twenty-two dollars.

Some profit may be gained from a comparison of the amounts spent yearly by representative American cities for the maintenance and operation of their public schools. New York spent in a single year \$19,731,629; Chicago follows with an outlay of \$8,303,493; Philadelphia's expenditure was \$3,319,604; Boston's, \$3,043,640; Baltimore's, \$1,417,392; Cleveland's, \$1,257,345; and Washington's, \$1,182,916. New Orleans is at the end of the list, with an expense of only \$478,025. St. Louis, by the way, pays more for its police department than for its schools; \$1,602,182 for the former as against \$1,526,140 for the latter—a ratio of one dollar for the police to ninety-five cents for the schools.—Harper's Weekly

REGARDING THE MAIL.

Europe has known the rural delivery service for many years, and it has there reached a very high state of development, giving to the people unequal postal facilities. Its struggle to get a foothold in this country was but a struggle of very advanced ideas to take root in unplowed ground. It had a hard birth, and in fact there was imminent danger at one time that false prophets would stifle it.

The general delivery clerk at the post office must not only deal with the jealous wife who seeks to interrupt her husband's letter, but also the strange adventures who has several interchangeable names and is not sure which one her mail will bear.

Of the millions of letters which go through the New York post office every month, over seventy thousand are thrown aside by the clerks as having blind addresses illegible to the ordinary clerk and are sent to the "blind reader." In one month of this year, he examined 73,889 blind addressed, nearly 64,000 of which he sent to their proper destination.

NEGROES IN BUSINESS.

Long distance lovers of the negro in the north are fond of saying that the colored man has no chance to rise himself above the grade of an ignorant day laborer in the South.

Hopkinsville, Ky., is a Southern town, in a Southern State, with a population of eight thousand.

In Hopkinsville alone the negroes are represented in the professions and trades as follows:

Ninety-eight teachers, four lawyers, three physicians, several musicians, about a dozen preachers, several mail carriers, ten grocers, three undertakers, twelve restaurant keepers, eleven barber shop proprietors, three blacksmiths, one confectioner, five painters and paper hangers, two stone contractors, two brick masons, four saloon keepers, one printing and binding establishment, five plasterers, one sign writer, one dairyman and several carpenters.

FORBIDS DANCING.

And Use of Intoxicants Drinks—Catholic Bishop's Commands.

The following official letter has been sent out to the Roman Catholic churches of the diocese of Kentucky by Bishop McClosky of Louisville:

"In view of the shockingly indecent style of the modern dance, we hereby forbid dancing of any kind, at any of the fairs, picnics, entertainments or outings for which Our permission has been, or may be, asked during the summer and autumn months; and following instructions of Third Plenary Council, of Baltimore, We feel bound in conscience to forbid the use of all intoxicating drinks at any of the above named fairs, outings, picnics, etc.; and so far as in us lies, We enjoin the same directions in these matters (for they touch the soul), on all Catholics of the diocese attending similar gatherings.

WILLIAM GEORGE,
Bishop of Louisville.
Louisville, June 11, 1903.

A PECULIARITY

Of the Kentucky River at Jackson.

The bloody record of Breathitt county, Kentucky, has directed general attention to that vicinity, and the correspondent for the New York Sun directs attention to an interesting fact in connection with that locality. This correspondent says:

"At Jackson, Breathitt county, or in its immediate environs, the small boy who finds it difficult to throw a stone across a vacant lot, or the ball player who is making a record when he throws a ball 115 yards, can stand within a few feet of the Kentucky river and throw a stone or a ball seven miles down the stream, then turn around and throw one seven miles up stream. Doesn't seem to be possible, does it? Yet it is so, and I have done it."

Let me explain. The Kentucky river at this point runs among the hills, which are steep and rocky, and at Jackson it strikes the hills opposite the town on the opposite side and bounds back, so to speak, in a great hook around a territory of bottom land seven miles in circumference, coming back to the lower side of the sharp dividing ridge to within a few feet of itself seven miles above by the measure around.

This ridge is two or three hundred feet high, and is so narrow that one for two or three hundred yards on its top must walk carefully or he will slide into the water below. A tunnel 68 feet long has been cut under the "saddle," and a mill at the lower end gets seven miles of fall in 68 feet; there are a good many rivers with loops in them but I know of none equal to the Kentucky river at Jackson.

WANT \$1.00 FOR WHEAT.

The American Society of Equity, which was incorporated recently in Indiana to organize the farmers of the country to secure \$1 wheat, held a session in Indianapolis. J. A. Everett, of Indianapolis, president, says branch organizations are being established in every State, and that the society in its short existence has secured 100,000 members. The plan is to get enough farmers into a close agreement to not only demand one dollar as the minimum price of wheat, but to demand and secure higher prices for all agricultural products.

Marion Ice and Storage Co.

Is no longer a talked of enterprise for Marion, but is here to stay in reality.

The promoters of this new enterprise have already secured property in Marion and commenced work of sinking additional wells for water supply, and preparing to erect buildings, and will move their plant from Princeton, Ky., here at as early a date as possible. In the meantime we have received our delivery wagons and a supply of ice, and have commenced to furnish ice to the citizens of Marion and community.

Ice will be delivered at low prices and with promptness. Very respectfully,

Marion Ice & Storage Co.

LIVINGSTON COUNTY.

News of Our Sister County— Two Weddings.

(Smithland Banner.)

Miss M. Lillie Irwin, of Elizabethtown, Ky., has been given the principalship of the Smithland Graded School. This completes the faculty as follows: Miss Irwin, Miss Mary Smith and Miss Minnie Culver. The two last named are well known here, and from the class high recommendations of Miss Irwin, this bids fair to be a star year in the school's history. Miss Irwin is teaching in Cherry Bros. school at Bowling Green.

Commencement cards, announcing the graduation of three of the most prominent and popular teachers of the county, are out. C. E. Parcell, of Salem, is valedictorian of the class in which A. A. Casper and R. C. Farris also finish on July 1st at Macauley's theater. The Hospital College of Medicine will never bestow the honors of graduation upon more worthy men than these three from Livingston.

A pretty affair, was the marriage of Dr. G. L. Crawford and Miss Virginia L. Throop. The marriage was celebrated in presence of only a few friends at her home, with Dr. J. Frank Crawford, of Hampton, best man, and Miss Mary D. Throop bride's maid. None of the party ever looked better. A delightful luncheon was served, after which the bridal party retired to the Webb House, where rice and the most profuse congratulations were showered upon them by numerous friends.

Mr. Frank Hamby, of Berry's Ferry and Miss Kitty Humes, of the Good Hope neighborhood, were united in marriage at the residence of the bride's parents, Rev. Perryman, of the Baptist church officiating. Quite a crowd of the friends of the couple was in attendance.

Mr. Hamby is one of the county's most successful young business men, and is at present doing a thriving mercantile business at Berry's Ferry, where he has many friends and well wishers. Miss Humes is a pretty young lady and very popular.

PROGRAM

Livingston County Sunday School Celebration July 26th.

FACTS AND FIGURES.

A fine ostrich is calculated to yield \$250 worth of feathers.

Masses, Sweden, has a fire department of women, 150 strong.

Every square mile of the sea is estimated to contain 120,000,000 fish.

HIS FIRST RIDE.

Livingston County Farmer Met with Accident on a Train.

J. E. Sullivan, a farmer residing in Livingston county, was the victim of a serious accident Tuesday afternoon. He had never ridden on a train and at Gilbertsville he boarded the local passenger train on the I. C. to come here and collect for a load of tobacco he sold last week. As is usual before the station was reached the conductor called out "Paducah". Sullivan thought he must get out at once, and went to the rear of the coach and jumped while the train was moving at a swift rate of speed, some distance beyond the Union depot.

He hit the ground with terrible force, being thrown headlong. He was so badly hurt that the patrol wagon was called and he was taken to the city hospital, where city physician Rivers examined him. He found that Sullivan's right arm was broken at the elbow and he was slightly bruised otherwise.

The arm was set and Sullivan is getting along nicely.—Paducah News-Democrat.

THE BAPTISTS

Ask Gov. Beckham to Have Legislature to Deal With Breathitt County.

The Kentucky Baptist Association in session at Winchester last week adopted the following resolution:

Whereas, There exists in Breathitt county a disgraceful state of lawlessness which is intolerable in this day of enlightened government; and

Whereas, We are advised that under the existing laws the selection of a grand jury for investigation of crime must take place in the county where the crime is committed, and that after indictment the case can be removed for trial only by action of the local authorities, which laws are clearly inadequate to meet the requirements of the present and similar conditions; and

Whereas, It is necessary for the protection of law-abiding citizens of the feud-ridden districts as well as for the sake of our beloved State's good name that the present laws be at once amended so as to provide in cases like the present for an investigation of crime by a grand jury out of the county where it is committed, and for the easier removal of cases for trial; now be it

Resolved, That we, the representatives of a large portion of the State's Christian citizenship, deeply interested as we are in this matter of such eminently practical Christianity, do earnestly urge the Governor to call together the General Assembly in extra session to enact such laws as will give relief from the present deplorable condition of affairs in our State.

POWERS REFUSED BAIL.

Georgetown, Ky., June 16.—Caleb Powers failed in his attempt to secure bail in order that he might attend the funeral of his father, Amos Powers, who died at his home in Barbourville. Powers wired Judge Robbins, at Mayfield, that he would give a \$50,000 bond if he would allow it to be done. Judge Robbins wired back that he could not do such under the law. Judge Robbins has also fixed Monday, August 3, as the date when he will begin the trial of Powers.

FOR SALE.

A house of four rooms in East Marion, and three building lots in East Marion. Will sell all together or separate to suit purchaser. Property is well improved. Price reasonable.

SAM HURST, Ardmore, I. T.

HOW ARE YOUR EYES?

If you are having trouble of any kind with them you should call on

DR. C. L. GRAY, OPHTHALMOLOGIST,

Who will be in Marion on his regular semi-annual trip July 10th, and remain two or three weeks. He will be well prepared to do all kinds of Optical Work, and is an expert in Scientifically Testing and Correctly Fitting Glasses to the most difficult cases.

Consultation and Examination Free.

Office next door to New Marion Hotel.

NEWS NOTES.

A revolutionary plot in Peru was nipped in the bud.

The one hundred and twenty-fifth anniversary of the evacuation of Valley Forge by Washington and his troops was appropriately observed there.

State Inspector Hines has secured strong testimony corroborating the statement of Capt. Ewen that he was offered a bribe of \$5,000 to testify falsely in the Jett-White case.

Gray Haddix, one of the witnesses against Thorp and Crawford, the men accused of burning Ewen's hotel at Jackson, has written a letter to a Lexington paper, saying he is afraid to stay at home because of threats that had been made against him.

Reports from Washington say that the corruption which has been unearthed in the Postoffice Department has spread to other bureaus, and that only a small portion of the looter's work has been revealed.

The Kentucky Baptist Association, in session last week at Winchester, adopted resolutions urging Gov. Beckham to call an extra session of the Legislature to enact such laws as will relieve the deplorable condition of affairs in Breathitt county.

It is now believed that the recognition of the Serbian Provisional Government by the Czar of Russia has put at an end all possibility of internal uprising. Public attention is now centered entirely upon the reception of the new King, who from Geneva has telegraphed a proclamation accepting and announcing his intention of ascending the Serbian throne under the title of Peter the I.

The government of Serbia will be a military dictatorship, under which King Peter will be a mere figurehead with chances of assassination on a par with those of the late King and Queen. The military conspirators who killed King Alexander and Queen Draga have effectively squelched all expressions of the Serbians in favor of a Republic, and defend the recent crimes as an act of mercy to the people.

There has been discovered what looks like a serious attempt at fraud on the part of the American Consuls in China, who have been freely endorsing false certificates, intended for the evasion of the Chinese exclusion law. While the law excludes all laborers, it permits the admission of "merchants" meaning those who have engaged in trade in China. When such a merchant desires to come to the United States he secures from the local authority a certificate showing that he has been a merchant. This certificate is then taken to the United States consul, and the report is that consuls have been endorsing these certificates for a consideration, regardless of their accuracy.

A conflict between the United States Government and the State courts of Virginia is likely to follow the action of the Chancery court at Richmond in issuing an injunction restraining naval officers from launching the war vessel Galveston from the ship yards of the Trigg company. The injunction was issued to protect the rights of the creditors of the Trigg Company, which is in the hands of a receiver. Attorney General Knox indorses the position of Rear Admiral Bowles, relative to the Government's right to call out troops, if necessary, in order to permit the launching.

James T. Metcalf, for many years Superintendent of the money order system in the post office department at Washington, was summarily dismissed by Postmaster General Payne for awarding contracts for Government printing to a firm employing his son, and whose bid exceeded that of a responsible contractor by \$45,000. There were rumors that another indictment will be returned against A. W. Maehen, this time for alleged forgery. The report of Fourth Assistant Postmaster General Bristow, in response to S. W. Talloch's charges, was made public.

WILD WEST SCOUT

And His Thrilling Show at the Owensboro State Fair.

The Directors of the State Fair, which will be held in Owensboro in September, are not only working hard to secure a successful distribution of the \$20,000 cash premiums for live stock, agricultural and domestic exhibits, but they have a keen eye, as well, to the amusement features, and are now engaged in arranging a highly interesting programme, which will be announced from time to time, as it is completed.

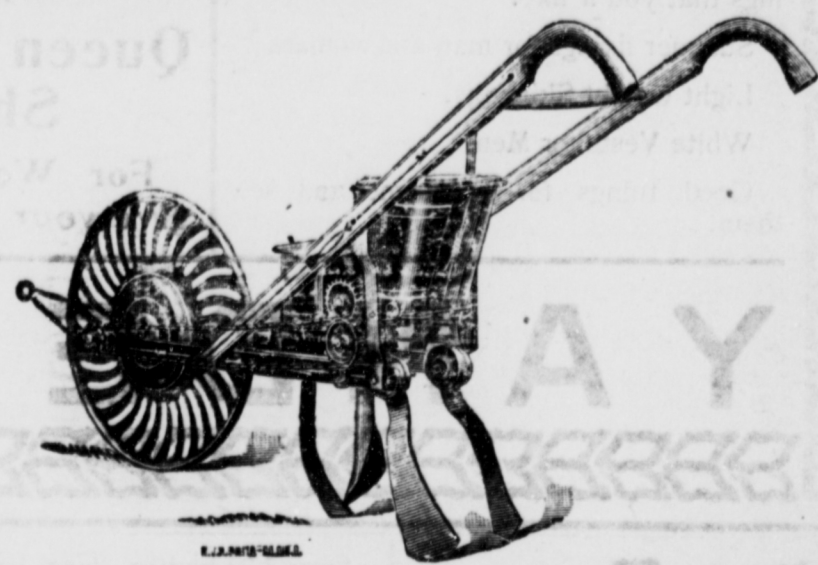

The first big attraction settled upon is the famous "Broncho John's Wild West Show." It will be free to all who attend the fair.

As a scout of the plains Broncho John has a place in the history of Indian warfare, and in a startlingly realistic manner he and his band of scouts and Indians will hold up stage coaches, "bust wild bronchos" and give a sham battle between a lone scout and a band of redskins, the scout using his pony as a breastwork.

There will also be automobile races, professional and athletic games, a race between an ostrich and a horse, and a score of other things.

TO REMOVE CAPITAL.

A movement is on foot to have the State capital moved from Frankfort to Louisville, so that the proposed million dollar building can be located there. The transfer would require a constitutional amendment.

NOTICE.

To all persons knowing themselves indebted to me by note or account or for seasons of colts, you will please see Mr. I. M. Wood and settle at once and some trouble and cost, for as I am in Missouri I shall expect a prompt settlement, and all who fail to settle by August the 1st, will find their accounts in the hands of an officer. So thanking you for past favors and expecting a prompt settlement of you I remain yours as ever.

F. M. DANIEL,
Annisson, Mo.

I have practiced medicine for 36 years and have consulted the leading physicians in this country in regard to a remedy for dyspepsia, but have never been able to find anything that would effect a cure until I used Kodol Dyspepsia Cure. Could not eat anything but milk toast for months, but since I used Kodol I can eat anything, and feel that my health is better than it ever was in my life. I can not say enough for Kodol for it has saved my life and I know that it will cure any case of Dyspepsia if taken as directed.—M. D. Settle, M. D., Big Hill, Ky.

RESOLUTIONS OF RESPECT:—\$1.00

Senator Blackburn says Gorman
appears to be the man who would
unite the party.

Indiana and Illinois have recent-
ly eliminated themselves from the
role of critics of the South on the
negro question.

Marion gets the district Metho-
dist parsonage. There are many
good things in store for us, if we
will go after them.

Feudalists are getting some so-
lar plexus blows, prize fights are
being enjoined, hangings are on
the docket in Kentucky.

The ready response to the call
for a popular subscription for
Capt. B. J. Ewen shows the good
impulses and emotions of Kentuck-
ians.

The next session of Congress
may do more to point out the
available Democratic candidate
than the newspaper booms of this
year.

Nobody ever perforates the anat-
omy of a country editor with bul-
lets to get his job, hence we
wouldn't swap places with a king
—of Servia.

The modern proverb, "What's
the constitution as between
friends?" may not stand the stress
of circumstances in Washington
nor in Breathitt.

It is whispered around that the
grand jury has tackled the bunco
proposition. Wonder if it will be
able to get a dollars' worth of in-
formation for ten cents worth of
inquiry?

We hope that when the postof-
fice department gets matters at
Washington smothered out, the
matter of a new post office build-
ing at Marion will be put on the
calendar.

The grand jury can doubtless
learn upon a fair inspection that
the fellows who parted with their
money so readily and hopefully in
our famous local bunco game con-
stitute the only genuine green
article in the whole transaction.
We warn them about carelessly
fooling around on the streets—the
town cow is powerful hungry for
salad.

Over 170 bodies have been re-
covered at flood stricken Heppner,
Ore., and thirty-five persons are
missing.

It is stated that a special term
of the Harrison Circuit court will
be called for July 27 to try Jett
and White.

The Court of Appeals clears up
the fog that was settling over the
Democratic situation in Louisville
by a decision adverse to the po-
sition of chairman Young in arbi-
trarily unseating the local com-
mittee.

One of the handsomest souvenir
edition of a county paper that has
reached our desk in some time is
the illustrated edition of the Un-
iontown Telegram. It is a splen-
did piece of work.

The decorum about the big tent
during the meeting has been good
—a little rowdiness on the out-
skirts, but nobody need expect the
devil to surrender the tent in Ma-
rion without a kick from some of
his emissaries.

In the McCracken and Marshall
judicial district, L. K. Taylor, con-
testing for the Democratic nom-
ination for commonwealth's attor-
ney, gives nine reasons why he
was elected, but as his opponent
is in possession, he evidently has
nine points of law to stand upon.

The removal of Jett and White
to Harrison county means that a
faithful, vigorous prosecution a
fair trial and a verdict in accord-
ance with the law and evidence
will be had. It looks like those
who went into the court scoffing
at the idea of justice being meted
out to them will remain to pray.

The Columbus Critic last week
issued an elegant illustrated
edition setting forth the busi-
ness, social and agricultural inter-
ests of the city of Columbus and
Ballard county in a most attrac-
tive and interesting manner. The
edition was well gotten up and is
indeed a credit to editor Chas. N.
Walker.

Reversed by Court of Appeals.

The Court of Appeals last week
reversed the case of J. P. Reed
against the Illinois Central rail-
road, in which a verdict for the
railroad was rendered in the Crit-
tenden circuit court. Reed sued
the railroad for failure to carry
out a contract made with plaintiff
regarding some pilings. The re-
versal was made on the construc-
tion of the contract.

For Ladies and Gents Summer Under-
wear go to Taylor & Cannan.

CIRCUIT COURT

**Convened Monday—Sisco Case
Set for Monday.**

THE GRAND AND PETIT JURIES.

The June term of Circuit court
convened Monday, with Judge
Gordon on the bench.

The grand jury is made up of
the following men: Enoch R. Wil-
liams, foreman; L. E. Cook, H. V.
Stone, Wm. H. Hughes, J. J. Alexan-
der, Wm. R. Spence, Daniel W.
Rawlston, Sr., J. Henry Davis, G.
L. Whitt, E. M. Duvall, Robt. C.
Threlkeld, J. H. Brouster.

The following are the petit ju-
rors:

J. P. Duvall, Ed F. Dean, Frank
G. McDowell, F. I. Travis, R. W.
Wood, W. B. Little, J. W. Brasher,
J. S. Braswell, C. C. Woodall, F.
B. Heath, Thos. McKinney, J. T.
Massey, S. S. Woodson, P. H.
Woods, John R. Marvel, Geo. F.
Williams, E. E. Thurman, Henry
P. Phillips, A. Murphy, George D.
Kemp, W. H. Ordway, James B.
Allen, Jos. E. Dean.

The officials with public funds
on hands reported as follows:

County Judge Towery, \$72.50.
County Clerk Weldon, \$163.48.
Circuit Clerk Haynes, \$18.53.
Justice P. C. Moore, \$41.
Justices T. M. Larue, \$5.02.

The following cases were dispo-
sed of and many were continued:

Chas. Binkley and Will Kirk,
breach of peace; plead guilty and
fined \$5 each.

Ed Teer, gaming; plead guilty,
fined \$20.

Jas. Hughes (col.) gaming; plead
guilty, fined \$25.

Jeff Hickson, carrying conceal-
ed deadly weapons; fined \$25 and
given ten days in jail.

T. J. Yates, disturbing lawful as-
sembly; fined \$20.

Burl Sisco, seduction; forfeited
his bond.

Forrest Herrigis, two cases;
breach of peace and pointing pis-
tol; dismissed.

Edia Lewis, carrying concealed
weapon; acquitted.

H. B. Miller, false swearing; dis-
missed.

A motion was made in the suit
of Ada Robinson against the Illi-
nois Central railroad to transfer
the case to the United States Cir-
cuit court. The court overruled
the motion. A new petition and
a new bond was then presented for
the removal of the case to the
Federal court.

The suit of J. W. Guess against

James Nation was dismissed set-
tled.

The suit of James Lane against
John Moore was dismissed set-
tled.

The trial of George M. Sisco,
charged with the murder of Ber-
tha Williamson, is set for next
Monday. The case will probably
be continued.

SENATOR DEBOE

**Declares for Belknap for Gover-
ner, Says a Louisville Paper.**

Former United States Senator,
W. J. Deboe, of Marion, is in the
city consulting with well known
Republicans on the political situ-
ation with especial reference to
the fight for the nomination for
Governor. Mr. Deboe says that
the western part of the State is
for Belknap for Governor.

"In the First district," said Mr.
Deboe, "Belknap will get ten out
of the thirteen counties. In the
Second he will get four out of the
eight. He will get all of the Third
and I believe will break even with
Willson in the Fourth, notwith-
standing the revenue men in that
district. Belknap will win easily."

The former Senator will remain
several days here in consultation
with Republican leaders.—Times.

Begs for It.

Even the dog likes ice cream and
begs for it, just as his mistress
and the other children urge their
mother to have ice cream for them.
Ice cream is a popular and nutri-
tious dessert. It is easily made
at home in a

Peerless Iceland

Freezer (ONE MOTION)

You can then have it as often as
you wish. The children can freeze
it themselves. There are no cogs
on can top to catch the fingers or
get out of order every time the
freezer is opened. Three minutes
is the freezing time.

Sold by Bigham & Browning.

The size of the crowd in town Monday—the first day of circuit court—clearly proved that the farmers over the county are hard at work.

Mrs. W. D. Wallingford, who is at a hospital in Evansville, suffering from appendicitis, is improving. A successful operation was performed.

Mrs. J. B. Champion, of Livingston county, came to this city last week to see her son, attorney Joe B. Champion, who has been ill for several days.

Mrs. Thos. J. Nunn and daughter, Miss Nar, of Frankfort, were called to this city by the illness of Mrs. Robert L. Flannery, and will remain here several weeks.

For misses and ladies slippers go to Taylor & Cannan. They have an up-to-date line.

Mr. R. E. Pickens, of Metropolis, Ill., spent Sunday and Monday with his parents in this city. Richie recently took charge of a new store established at Metropolis by the Stinson Bros., in whose employ he has been for several years.

Hon. J. R. Summers, of Livingston, was in to see us Friday. He is one of the successful farmers of his rich farming section, and like all the good citizens—and they are all good—of that section, he anticipates substantial results from the mining enterprises of his county.

With every \$25 cash purchase at Black & Son's store, you are entitled to a handsomely decorated 42 piece dinner set for the small sum of \$2.25 and you need not buy all the amount at once—buy as you need.

Dr. G. Goldstein, the famous optic specialist, was kept busy all last week in our city and has been requested to return as soon as he can fill another engagement made for the first of the week. He will return Thursday, June 25th, and will remain three days only.

Mr. W. F. Spoehr, Traveling Freight and Passenger Agent, of the "L. H. & St. L." was a pleasant caller at the Press office Friday. He was in the city advertising the new train the company has inaugurated between Evansville, Henderson and Cloverport and intermediate points, connecting at Henderson with the L. & N. and the Illinois Central.

Bicycle repair work of all kinds done at low prices. Supplies for sale. Emmet Koltinsky.

No difference what kind of a dress you want you'll be better pleased for less money if you'll come to CLIFTONS.

Dr. Gray, the ophthalmologist, who comes to this city next month is not a spectacle peddler, but a regular graduate in optics, who carries no spectacles or eyeglasses with him, but has lenses ground for each patient's eyes after making the test and getting the proper correction, thus insuring a perfect fit and satisfaction in every case.

K. P. BANQUET.

A Hundred Knights and Their Ladies Around the Festal Board.

Friday evening June 19, Blackwell Lodge, Knights of Pythias gave a banquet at Crittenden Springs. One hundred and ten covers were spread and the knights with their lady guests presented a brilliant scene in the large, handsomely decorated dining room of the famous hostelry. Marion, Princeton, Sturgis and Providence lodges were represented in the joyous throng. From 9 to 12 o'clock the menu, containing the delicacies of the season, and the dainties of all seasons was charmingly served, and there was interspersed "The feast of season and the flow of soul."

Mr. Chas. Evans presided and was toastmaster, and as such he was one of the delightful phases of the evening.

The following toasts were responded to in charming style:

The Chancellor Commander.—F. D. Maxwell.

Politics and Pythianism.—H. A. Haynes.

Fellowship.—Our visitors, Dr. Hanley, Mr. Pride and Mr. McGraw, of Sturgis; Mr. Stewart Givens, of Providence, and Dr. Gilbert, of Princeton.

Sweethearts and Wives.—R. C. Walker.

The Brightest Jewel in the Casket of Pythian Gems.—Chastain Haynes.

For the Good of the Order.—Jno. A. Moore.

It was one of the most pleasant affairs in the fifteen years history of Blackwell lodge—a lodge that has a high standard of membership, and one of the most active and successful in the community.

Its growth and expansion has been rapid the past few months and its future is full of promise.

GENERAL ASSOCIATION.

Rev. W. R. Gibbs returned Friday from Winchester where he attended the General Baptist Association of Kentucky. The Association meets next year at Campbellsville.

Rev. W. R. Gibbs was the only representative of the Ohio River Association at the big meeting at Winchester. The Association is in a prosperous condition. Pledges of \$30,000 for foreign mission purposes and \$20,000 for home missions were made. Eleven hundred dollars was subscribed to the interdenominational temperance work.

The alumni of the Louisville Baptist Theological Seminary proposed to raise \$60,000 to endow a chair in that institution, and one-third of the amount has already been raised.

The Woman's Aid Society reported a \$1,100 raised during the past year.

Arrangements were made to establish a Baptist Historical Society, and the following committee was appointed: J. N. Prestidge, T. T. Eaton, W. J. McGlothlin, J. M. Weaver and W. W. Hamilton.

THIRTY SUCCESSIVE YEARS.

For thirty successive years, without a single intermission, Mr. W. H. Bigham, of Chapel Hill, has raised, housed and sold, a crop of tobacco. He has not been an extensive producer of the weed, his crop comprising a few acres, but he did most of the actual labor himself from the time the plants were out until the crop was on the market. Who can beat this record for tenacity as an actual tobacco raiser. It may be further said, that the buyers were always anxious to get his tobacco because besides being of high grade, it was properly handled.

GONE TO ARIZONA.

Rev John D. Frazer, has been appointed by Bishop H. C. Morrison pastor of the Methodist church at Nogales, Arizona, and left Tuesday for Arizona to assume his duties.—Cadiz Record.

FOURTEEN APPLICANTS

For Teachers Certificates Were Examined Last Week.

Fourteen teachers were before the board of examiners Friday and Saturday for examination. The following are the words given them to spell. Have some one give them for you, and see what your grade would have been:

1. Canteen, turgid, solder, subtle, faucet, derrick, rescind, fossil, feline, serenade, lassitude, peaceable, sinecure, incisive, meretricious, confectionery, perceptible, trousseau, guillotine, facade, indictment, resin, placard, isotherm, incendiary, corpuscle, solecism, mercenary, pronounceable, supersede, talisman, sherbet, hyson, enervate, porphyry, pawpaw, pagentry, nuptial, amateur, missile, subterranean, edible, homicide, exorable, gerry-mander, expel, versatile, mandarin, frontispiece, tonsillitis, corolla, phosphorus, oscillate, orchid, panacea, gentian, exorcise, precursor, ephemeral, anemone, puerile, repartee, cleumatic, intangible, subsidize, intensity, epicure, allegiance, miscellaneous, insatiable, proceed.

2. Define the first ten above.

3. Mark discretically the last ten.

BRIDE WELL KNOWN HERE.

We take the following from the South McAlester, I. T., Capital:

"Mr. Shannon S. Smith, local manager of the Rockwell Bros. Lumber Co., and Miss Macy Coffield, daughter of Mr. R. Coffield, of this city, were united in marriage at Little Rock Monday morning at nine o'clock and arrived at home last night over the Choctaw."

The marriage of this estimable young couple was a surprise to many although their intentions were known by the family and a few close friends. Miss Coffield had been visiting friends at Louisville and on her return home she was met at Little Rock by Mr. Smith. As pre-arranged the ceremony was performed just before the train for the west departed.

The bride is one of the popular young ladies of South McAlester. She was elected queen of the May carnival here last summer.

The groom is a clever young business man of excellent habits and a bright future."

The bride has many friends in this city, her old home, who join with the Press in wishing her unbounded happiness.

EPISCOPAL SERVICES.

Rev. M. M. Benton of Louisville, missionary of the Episcopal diocese of Kentucky, held services in Marion Sunday, occupying the Cumberland Presbyterian church. Communion services at 7:30 a. m.; morning prayer and sermon at 10:30, and evening prayer and sermon at 8:00 p. m. A choir of seven voices from Henderson rendered the music. It was a delightful and churchly service, participated in and enjoyed by an appreciative congregation.

Mens black French lisle lace stripe socks, as good as you can buy elsewhere for 25c

Only 14 cents at Cliftons

A good \$3.00 Shoe for \$2.50, a good \$2.50 shoe for \$2.00, at the store that's always got the bargains. CLIFTONS.

MARION GETS IT.

The District Parsonage to be Located at Marion.

The district parsonage of the Princeton District Methodist Conference will be located at Marion.

The district board of trustees met at Princeton Wednesday. Marion offered \$350 for the parsonage. The bid was made through Elder Elgin, Dr. J. A. Akin of Princeton moved that the parsonage be given to Marion; the motion was seconded by Mr. Thomas H. Molloy, of Kuttawa. After discussing the matter the parsonage was awarded to Marion by an unanimous vote, providing that suitable property can be secured in the city.

In speaking of the matter the Princeton leader says:

"The district board of trustees of the M. E. church were in session here Wednesday and the presiding elder's parsonage was located at Marion, provided that town pays at least \$350 towards it and that said board can find suitable property at satisfactory price in said town. There were no other bids and Princeton laid down without a try, the amount of Marion's bid scaring them. Thus we lose a good family and headquarters of the conference district from want of enterprise."

Opening Ball Thursday Night.

The opening ball at the Crittenden Springs Thursday evening is being looked forward to with pleasant anticipation by the young people of this city. Large parties are coming from surrounding cities, and the opening of the big hotel will be an auspicious one.

Biggest bargains in Clothing ever offered in Marion. Mens Suits \$2.50 up. CLIFTONS.

A CORRECTION.

Last week we stated that Ed Farmer had been released from jail on payment of fine. We were mistaken in the name. We should have said Fred Farmer. Our friend, Ed Farmer, the popular engineer at the Old Jim mine was in no way connected with the affair.

INDIANA STYLE.

The Colored Citizen Treated to Insult and Ignominy.

(Evansville Courier.)

There was a clash between the street car company and the citizens of Howell yesterday, when it was discovered that a negro was acting as conductor on one of the cars. The negro was allowed to make three trips, when he was ordered off the car by a number of infuriated citizens and made to leave the town on the double quick and several shots were fired, but not one was directed towards the negro, and were fired merely to frighten him.

A citizen of Howell, who was seen last night, gave the following version:

The feeling against the negroes did not abate last night. Three who were found sleeping in box cars in the Howell yards were dragged out, roughly treated, and forced to leave town at the point of revolvers. A telephone message at a late hour stated that a warm reception would be given to any negro found within the town limits.

COMMONER NOTES.

The waning of the Cleveland boom is convincing proof that the sucker fishing is not good this year.

Thoughtful observers doubtless noted that Mr. Hanna's graceful back down was in response to a request.

The indications are that the men who are whitewashing the White house dome will be called off and set to work in the postal department.

Filipino bands are allowed to play the "Aguinaldo March" provided they immediately follow it with "Star Spangled Banner." The carpet-bag government of the Philippines is doing its best to prove to the Filipinos its superior wisdom.

With marriages between senators' sons and trusts magnates' daughters, and vice versa, this thing of the senate looking after the trusts and the trusts taking care of the senators is becoming a regular family matter.

The country is waiting to hear the president rebuke those postal thieves with something like the severity he exhibited when he rebuked the impetuous youth who shouted "Hello, Teddy!"

Whenever there is any disturbance in a republic it gives rise to a criticism of the form of government; when it happens in a monarchy it is not regarded as possessing political significance.

Belleville, Ill., is the scene of the latest negro burning bee. The g. o. p. organs of that state will have to do a terrific lot of howling about the woes of the southern negroes if they would keep public attention away from the Belleville affair.

HENDERSON ROUTE'S NEW FOLDER

We are in receipt of the new time table folder of the Louisville, Henderson and St. Louis Railroad. It is well arranged and easily understood, in fact it is one of the most comprehensive railroad guides we have met with. "The Henderson Route" is rapidly growing in popularity, as the service given is excellent. Splendid connection is made between Evansville, Henderson and St. Louis, and Louisville. The road will be popular next year as "The World's Fair Line."

ALLEGED MURDER PLOT.

Revelation of an alleged plot to kill Dr. R. N. White and W. W. Morris, two of Fulton's wealthiest and most influential citizens. The Anti-Saloon League claims that the discovery of the plot has helped the cause of temperance wonderfully.

Hump Back

SCOTT'S EMULSION won't make a hump back straight, neither will it make a short leg long, but it feeds soft bones and heals diseased bone and is among the few genuine means of recovery in rickets and bone consumption.

PLENTY DESCENDANTS.

The Unique Record of an Aged Farmer.

The Bardwell News says: "Richard Middleton, who lives near Conningham, has more descendants, perhaps, than any other man in Carlisle county. He has arrived at the ripe age of ninety years, and is the father of twelve children. He has sixty-six grandchildren, fifty-six great-grandchildren, and one great-great-grandchild. He is yet hale and hearty for a man of his age and bids fair to live many years yet."

CONFEDERATE REUNION.

Madisonville Camp No. 528 will have a reunion and parade at Madisonville, Ky., on Wednesday, August 5, 1903, and all members of other camps are cordially invited to be with us on this occasion. Order of the day will be as follows:

Meeting at court house at 8:30, a. m.; after which parade will form at court house at 9 a. m. and headed by the brass band will parade the principal streets of the city on horseback; thence the procession will proceed to the Hopkins county Fair grounds, (August 5 being the second day of the great Hopkins county fair), in marching line, where maneuvers will be executed in the center field in front of the amphitheater. After the maneuvers the rest of the day will be spent mingling with old friends, taking in the races, and other sights of the great fair. No charge is made at the gates for admission, to the old soldiers on horseback in the line of march.

It will be a pleasure to us to have all the old comrades from this section of the State with us on this occasion.

Fraternally,
A. Tindler, Com.
T. H. Smith, Adjt.

Baptized and Spanked.

There was a "baptizing" in the creek near Fredonia, Kansas, the other day. One of the candidates was a girl of 12 years. As she went under the water she had her mouth open, and when she came up she was spluttering, as half choked people will. Then she was lead crying to the bank and her mother seized her and shook her and spanked her before the whole crowd.—Kansas City Journal.

A LONG HEADED WOMAN.

The Glasgow Echo tells of a knowing young wife who cured her husband of staying out late at night in an original way. Before going to bed she would place two easy chairs together before the sitting room grate and then hold a lighted match to a cigar until the room had a faint odor of tobacco smoke. Although her husband never said a word to her about noticing anything, three applications effected a complete cure.—Kansas City Star.

A SMALL BABY.

Probably the smallest baby ever born in this section, was born to the wife of Mr. Hirschel P'Pool, on June 10th.

The new arrival is a perfectly formed boy and weighs only 2 1/2 pounds. The young man is well and hearty, and promises to develop into a fine specimen of manhood.—Hopkinsville New Era.

WHERE GAMBLERS ARE MADE.

Dr. S. B. Anderson, of Payne's Depot, Ky., tells of a reformed gambler who said:

"I have been in the saloon business with a gambling room attached for the last four years and claim to know something about what I am going to tell you. I do not believe that the gambling den is near so dangerous, nor does it do anything like the same amount of harm as the social card party at home. I give this as my reason. In the gambling room the windows are closed tight, the curtains are pulled down, everything is conducted secretly for fear of detection, and none but gamblers as a rule enter there, while in the parlor all have access to the game, children are permitted to watch it, young people are invited to partake of it, it is made attractive and alluring by giving prizes, serving refreshments and adding high social enjoyments.

For my part I never could see the difference between playing for a piece of silver, molded in the shape of money, and silver molded in the shape of a cup or thimble. The principle is the same and whenever property changes hands over the luck of the cards, no matter how small is the value of the prize, I believe it is gambling."

Chinese Proverbs About Women.

Respect always a silent woman; great is the wisdom of the woman that holdeth her tongue.

A vain woman is to be feared, for she will sacrifice all for her pride.

Trust not a vain woman, for she is first in her own eyes.

A haughty woman stumbles, for she cannot see what may be in her way.

Trust not the woman that thinketh more of herself than another. Mercy will not dwell over in heart.

The gods honor her who thinketh long before opening her lips. Pearls come from her mouth.

A woman and a child are alike. Each needs a strong uplifting hand.

A woman that respects herself is more beautiful than a single star—more beautiful than many stars at night.

Woman is the cause for that which pains the man. She is balm for his troubles.

A woman who mistakes her place can never return to where she first was. The path has been covered up from her eyes.

Begs for It.

Even the dog likes ice cream and begs for it, just as his mistress and the other children urge their mother to have ice cream for them. Ice cream is a popular and nutritious dessert. It is easily made at home in a

Peerless Iceland

Freezer (ONE MOTION)

You can then have it as often as you wish. The children can freeze it themselves. There are no eggs on can top to catch the fingers or get out of order every time the freezer is opened. Three minutes is the freezing time.

Sold by Bigham & Browning.

Let Children Go Barefooted.

Let the children go barefooted. It is a crime against the race to punish children with shoes in warm summer weather. Ninety per cent of the nervous diseases now so prevalent come from being insulated from the life-giving magnetic currents that circulate through the earth as they do through animal bodies.

The race grew to its zenith of physical development while shoes were not known, because the race developed in tropical climates and if nervous people would take an every day walk barefooted on the bare, damp ground more than one-half of the nervous diseases would be cured without other treatment. Man and the lower animals never have rheumatism till they are

insulated from the earth by sole leather or rubber shoes, or wooden or tile floors.

People with rheumatism are afraid to touch the earth, while that is the very act that will cure them. Water cure people prescribe a wet blanket; a better remedy is to lie down naked in a ditch or furrow in good rich soil, warmed by the sun, be covered with soil and lie there from five minutes to an hour.

Turn the children out barefooted and the race will grow stronger, less nervous.

TO FIGHT SUNDAY BALL.

A fierce war will be waged on Sunday ball playing and Sunday opera at Paducah. The Good government league has employed an attorney who will press the case.

Paducah Girl Breaks Record.

Miss Mattie VanPelt, a stenographer in the law office of former Congressman C. K. Wheeler, of Paducah, has broken the world's record on a typewriter. She wrote 16,800 words from shorthand notes in five hours. The world's record, heretofore was held by Miss Mary E. Petty, a stenographer at the capitol at the Washington, who wrote 17,000 words from manuscript in six hours.

Walker & Dodge

Successors to Boston, Walker & Co.

DEALERS IN

FURNITURE,

Wall Paper, Window Shades and Paints.

We carry the LARGEST STOCK and the best assorted line of these goods ever before on the market in Marion. We are making the prices right for our customers. We want your trade and will show our appreciation of it in taking care of your interests. We also carry a complete line of

Coffins, Caskets, Burial Robes,

and have a good hearse for funeral occasions, ready to go to any part of the country. Our Mr. Dodge will give prompt attention to all calls.

We are at the old Boston & Walker stand, ready to serve you on a fair, square, courteous business basis and solicit your trade.

**R. C. WALKER
J. F. DODGE**

Desirable Home For Sale.

One good four room cottage, with hall, veranda and porch, good outbuildings, one extra building lot, fronting depot street, three acres land in rear, mostly set in strawberries and small fruits. This is a good street and fine location.

No. 2. A good 5 room dwelling, with hall, veranda and porch, a good cellar under kitchen, walled with brick and well tiled, always dry; a good laundry house or servants room in back yard, good outbuildings, good fences, good walks, plenty of grazing lots, well and cistern. This is my residence where I now live; rooms all newly papered and painted. These are good homes and comfortably new. Having made up my mind to go to another climate on the account of bad health I will give you a home that you will always be glad you bought.

I also have other property that I can show you; a good tobacco stemmy in Shady Grove; will sell cheap or exchange for other property; some mining property; will sell you anything that suits you at a bargain and will make you easy terms to pay for it.

J. H. MORSE,
Marion, Ky.

THREE DAYS ONLY

Dr. G. Goldstein Returns By Special Request June 25, 26, 27.

Remember the eye is the most sensitive organ we have. In its normal condition we can see at all distance alike; we can admire the beauties of nature and everything that is beautiful in life. The eye is often abused and neglected, the sight becomes impaired and requires artificial aid, and as medical attention is of no consequence there is one method to restore the sight to its normal condition, and that is the use of proper glasses. Drs. Goldstein will be in the city June 25, 26, 27, by special request. This is the opportunity of your life to get glasses fitted to your eyes to make you see properly and to rest and strengthen them. Drs. Goldstein are well known to some of our citizens and are highly recommended; Dr. Goldstein charge you nothing for examination and consultation and will give you proper advice. The value of perfect fitting glasses with reference to health can not be over estimated. Their effect upon the nervous system is direct, and, through this directly upon the entire organization.

A few of the troubles which result directly from neglect in this particular neuralgia, sick headache and nervous prostration. In addition to the general local affections often result from uncorrected errors of refraction; conjunctivitis (granulated lids) keratitis, with ulcers of cornea, paralysis of the nerves, astrophly of nerves. A sad mistake is made by most people in putting off spectacles too long. The old advice, "Don't begin specs until you have to," has done a world of harm. Anyone can, by spitting and straining and looking sharp go along time without spectacles, but he is sowing seeds of destruction to his eyes. Consultation and examination free. At the New Marion Hotel.

ICE Ice!

We are in the ice business and will be the whole season through. We want the ice trade this season. We will give you good weight and try to treat you right; we will meet any prices made. We can sell ice as cheap any one and will sure meet the lowest prices. We would like to hear from you when you want your ice box filled.

Very respy,

HEARIN & SON.
